Kapolei, Hawaii 96707

Attention: Mr. Ken Zelinsky

Dear Mr. Zelinsky;

Now that the re-coating project at the HMSA center is complete, let me take this opportunity to congratulate your company for a job well done. I particularly want to commend John Bloom, Johnny U, Kalani Ross, Jason Lee, and all the painters who worked so hard on-site each day on this project, for their attention to detail and professionalism. This was not an easy building to paint, with all its architectural complexity, constant human activity, and heavy vehicle traffic, there were so many ways that this project could have been made difficult or even disastrous by the contractor's on-site operations, and that it was worked to completion without any serious criticism or complaint from the HMSA management or Matsushita-Saito and Associates, speaks well indeed for the entire Zelinsky Company organization.

Thanks for your efforts, and I will look forward to working with you, and the Zelinsky Company family, again on future projects.

Regards;

To Ken Zelinsky,

First of all, CONGRATULATIONS! You and your company deserve a pat on your back for the completion of a milestone project for our industry as well as our City and State. Attached is a copy of the GCA of Hawaii's Award of Excellence that we received for the Waikiki Beach Walk and Embassy Suites Renovation project. (Since then, we have also received the NAIOP Kukulu Hale Award for Renovation co-project of the year.) The Waikiki Beach Walk project has already made a major impact to the restoration of our treasured Waikiki – tourists and locals alike can see and feel the transition that Waikiki is experiencing. The blood, sweat and tears that have gone into the efforts of these projects are recognized and appreciated. Thank you very much!

The Zelinsky Company has again exemplified the expertise in your industry to complete the tougher projects that you have been a part of. It was only through the efforts of Kathy Joslin, Johnny U, your committed field crew led by Brian Robertson and the many other “behind the scene” contributors that this could have been accomplished. Your dedication to a project schedule and quality delivery has always been a standard that Pankow continues to distinguish as top of class.

To your team, we have been blessed to be able to work with a team of professional individuals as yourself that has set the standard for “passion” within our industry. Best of luck to your future endeavors, and we look forward to the next challenge together.

Sincerely,
Charles Pankow Builders, Ltd.

Mr. Bill Nolan
Zelinsky Company
91-310 Komohana St.
Kapolei, HI 96707

Dear Bill:

On behalf of Hawaiian Dredging Construction Co., Inc., I would like to thank each and every subcontractor and supplier who worked on the Kahala Theatre project. I personally want to thank all the foremen and workers who participated.

All those involved acted in a professional manner even during the very hectic push at the end. As we were in the process of finishing the bathrooms, we had mirror installers working over the top of tile setters and they were working in between the painters. Without the cooperation that was given by everyone, this project could not have had the successful outcome that we had.

With a sincere thank you, we would also like to wish you a very happy holiday season.

Mahalo,
